Ballyfermot Area RAPID Programme

Review July 2006 to December 2008

This issue of RAPID News reviews the progress of the programme to date and the funding (over €6.7 million) that Ballyfermot has gained as a result of RAPID Status.

Ballyfermot RAPID Election Process

The Ballyfermot RAPID Interim Area Implementation Team was committed to finding an open and democratic means of electing four community representatives (on a ward and issue basis), on to the permanent AIT. Following a review of protocols for the election of community representatives on to RAPID AITs across the country, a range of options were recorded as methods for election that are viewed to be open and democratic by various communities throughout Ireland and these were agreed at the Ballyfermot Community Open Consultation in December 2006.

The election was based on the defined Electoral areas (solely for the purpose of RAPID AIT elections). Cherry Orchard- A & C, Lower Ballyfermot- (Decies and Kilmainham A), Drumfinn/Gurteen and Carna/Kylemore. Public meetings were held in September 2007 and nominations from all areas were requested. In three of the four wards, only one candidate was put forward and endorsed by community groups. These were deemed to be elected unopposed. In the Cherry Orchard A&C Ward, two strong contenders, Marie Hartigan and Suzanne McLoughlin stood for election on the 16th October 2007 which took place in the Orchard Community Centre.

Transition Year Students from the Dominican Campus monitored the election process and Inspector Frank Dunleavy from the local Garda station verified the count and results in the presence of the students and members of the RAPID Area Implementation Team.

This has been a most rewarding process involving community groups, local schools and the RAPID team to ensure that a fair and open democratic process gave the people of Ballyfermot the representation that they desired. Profiles of new community representatives are on page 2. Other community representatives will be elected onto the Area Implementation in due course.

Ballyfermot RAPID Area Community Election Results & Community Representatives Profile

Pat and Val Cullen, from Cherry Orchard Avenue, vote in Cherry Orchard for their choice of community representative.

Students from St Dominics with Paula Boylan from Dublin City Council oversee the voting process.

Students from St Dominics, members of the RAPID Area Implementation Team and Insp Frank Dunleavy get ready to count and verify the results from Cherry Orchard on behalf of the Ballyfermot RAPID Programme.

Profile: Jason Palmer has lived in Ballyfermot all his life. Jason has a strong belief in the Trade Union movement. Jason wants to use his time on the RAPID Programme to improve facilities for people with disabilities and the elderly in the area.

Electoral Area: Carna / Kylemore

Profile: Suzanne McLoughlin has lived in the Cherry Orchard Area for the last 32 years. Suzanne's issues of concern are parenting alone and youth issues. Suzanne feels that new faces representing the area are vitally important and she feels that she has something to offer and to give back to her community. Parenting alone and youth issues are very important to Cherry Orchard. Cherry Orchard has a very high rate of lone parents and youths who need services and integrated activities. We need to remove the old ways of thinking when trying to interact with young people today.

Electoral Area: Cherry Orchard A&C

Profile: Brenda Maxwell has lived in Ballyfermot all her life. She has seen lots of change over the last number of years and now wishes to influence change for the better under the RAPID Programme. She is an advocate for changes in the area of family support particularly for families at risk. Prevention is better than cure so I will be supporting any programme that wishes to tackle the causes of families in crisis, substance misuse and ensuring that our elderly population is cared for with due care given to a targeted approach towards the future. She also wants to use the RAPID Programme to create an awareness of the problems of the area and for communities to be empowered to help themselves with support.

Electoral Area: Drumfinn / Gurteen

Profile: Henry Harding has lived in Ballyfermot for the last 50 years. Henry is committed to community participation and would welcome the opportunity to talk to people around what they could do to help themselves with help from the RAPID Programme. He is also interested in the area of senior citizens and new community issues. Henry believes that Ballyfermot is a very welcoming community and considers Ballyfermot to be a cultural mix that is to be appreciated. He would like to see more integration of services for the elderly, more young people involved in community volunteering and a greater range of services and activities designed to bring about a more inclusive and community driven Ballyfermot. Henry has since been elected Co-Chair of the RAPID Area Implementation Team.

Electoral Area: Decies / Kilmainham A

The New Ballyfermot Area Implementation Team

The following are members of the Ballyfermot Area RAPID AIT. Further appointments will be made shortly.

| | |
|---------------------------------|---|
| Ciaran Reid | Ballyfermot Partnership Co-Chair. |
| Henry Harding | Community Representative Kilmainham A / Decies Co-Chair. |
| Sean Moloney | Dublin City Council. |
| Alan Trimble | CDP & FRC Representative. |
| Padraigh Rehill | Health Services Executive. |
| Pat Quinn | FAS. |
| Inspector Frank Dunleavy | An Garda Siochana. |
| Pam O'Reilly | Ballyfermot Local Drugs Task Force. |
| Jason Palmer | Community Representative Carna/Kylemore. |
| Suzanne McLoughlin | Community Representative Cherry Orchard A & C. |
| Brenda Maxwell | Community Representative Drumfinn / Gurteen. |
| Gwen Doyle | C.D.Y.S.B Youth Service Providers Representative. |
| Paul Lawlor | Youth Service Users Representative |
| Pat Teehan | Ballyfermot RAPID Programme Co-Ordinator. |

NOTE:FRC = Family Resource Centre. & CDP = Community Development Project

What the Future Holds for RAPID

In the current uncertain financial climate, RAPID continues to move ahead with its plans to secure investment for Ballyfermot under the seven themes.

Investment has been secured for the Cherry Orchard Family Resource Centre (the Bungalow) and building is nearly complete. This will add significantly to the services available in the Cherry Orchard Area.

Applications have been made to secure funding for various projects to enhance the quality of life of our senior citizens and if successful will provide for various health related activities.

Under the Community Safety theme of the RAPID Programme, we are committed to working closely with the Gardai, Dublin City Council and the Community Policing Forum to bring forward new ideas to reduce antisocial behaviour, underage and public drinking and engage our youth in creative activities. Also included are initiatives such as the community safety notice overleaf to make our citizens aware of the dangers of bogus callers.

Information is a key component of the RAPID process and under the Health and Community Safety themes, we are committed to ensuring that the people of Ballyfermot are provided with all the necessary information on services in the community.

Five other themes are currently being planned including Youth Support, Family Support, Education, Employment and Training and Physical Environment. As guidelines become available from Pobal we will endeavour to ensure that these plans reflect the needs of the people of Ballyfermot and actively work to secure funding for projects and programmes to address those needs.

Working in partnership with all statutory, voluntary and community groups in the area, the Ballyfermot RAPID Programme will continue to integrate projects, ensure community participation, be open, democratic and transparent and ensure that all funding secured will go directly to the projects. The success of the RAPID Programme to date has been our ability make the necessary contacts and to seize funding opportunities that provide real, on the ground change in the area. Contact details are available on the front of this magazine and we are available at any time to discuss ideas and opportunities to improve the quality of life for all of Ballyfermot. Your ideas and opinions are very important to the RAPID process and it is only by working with the people of Ballyfermot and promoting ownership and responsibility that we can continue to build on the success thus far.

RAPID Community News

California Hills Memorial Garden

The residents of Rossmore were delighted to launch their new Memorial Garden in California Hills on Friday 22nd August 2008. The garden remembers the family, friends and neighbours of the area who have died. Funded by Dublin City Council Ballyfermot Area Office, Community Development Section and Social Inclusion Unit, The Ballyfermot RAPID Programme and the Ballyfermot Environmental Group, this garden provided a great opportunity for the local people to be part of an integrated project. Apart from the funders help was received from the Ian O'Lone, Parks section and Mick Glennon, Road Maintenance section of Dublin City Council who provided old cobble lock stones from the streets of Dublin and removed spoil, Mark Doyle and the lads from The Ballyfermot Environmental Impact group who did all the core ground work and the people from Rossmore who did the planting. Sandra Austin and Lisa O'Grady, Horticulturalists with Dublin City Councils Play Development Childrens Summer Gardening Project designed the garden with the participants. Many thanks to all the residents of the area for this opportunity to work with them and especially to Helen Burke of the Councils Community Development Section.

Many more projects of this type will occur over the next few years. If you would like your area to be enhanced contact:

Pat Teehan 0868150133 or
Helen Burke 0868150968
for further details.

| Green Schools Project | €3,500 | Combined Funding |
| Cultural Appreciation Day | €2,800 | Combined Funding |

Cultural Appreciation Day

St. Ultan's National School in Cherry Orchard provided the venue for the cultural appreciation day on the 13th June 2008. John Tierney, City Manager, Dublin City Council launched the day. Foods from Thailand, Greece and Ireland were provided for tasting. African Drumming workshops, a Seanachai and traditional costumes from around the world showed the wonderful cultures and their contribution to our society. In an ever changing society, Ballyfermot stands out as an area that welcomes and appreciates the opportunity that change brings.

Ballyfermots First Green Schools Flag

Well Done to Margaret Condon and the students of St. Michaels Primary School for their efforts in securing Ballyfermots first ever Green Schools Flag which now flies proudly on the school grounds. The RAPID Programme was glad to help. John Gormley T.D Minister for Environment, Heritage and Local Government raised the flag and praised the school for its green initiatives and programmes.

Minister Gormley raises the flag and receives a gift of some home grown vegetables from the school garden.

Ministerial Visit

The Minister for Community, Rural and Gaeltacht Affairs Eamonn Ó Cuív visited Ballyfermot in November to launch the new playgrounds and to meet the Uaisle Retirement group who benefited from the RAPID Additionality Fund in 2006. John Nolan, Lord Mayor of Ballyfermot (pictured left with the Minister) and Catherine Lane, Co-Ordinator of the project presented the Minister with a little Christmas gift to remember his time here.

New Playgrounds for Ballyfermot

Convent Lawns and Bridgeview benefitted from the RAPID Programme with new playgrounds in each area. Dublin City Councils came up trumps with additional funding for both playgrounds including security railings. PlayZone is the Convent Lawns Playground and Happy Days is the Bridgeview Playground. The children of each area named their playgrounds and the RAPID Programme is very proud of the work accomplished. The playgrounds were designed and installed by GoPlay with the funding from the HSE RAPID Leverage Fund. The playgrounds provide a safe secure environment in which children can play. The equipment comprises of solo play items, group play items and items designed for children with disabilities and have passed the most stringent safety guidelines.

Minister Eamonn Ó Cuív and Laura Redmond open PlayZone in Convent Lawns 10th November 2008

Minister launched new Education Initiative.

The Minister for Community, Rural & Gaeltacht Affairs, Mr. Eamonn Ó Cuív T.D. attended St Raphael's Primary School in Ballyfermot on Thursday 15th May '08 to launch the Ballyfermot Community Association and Ballyfermot RAPID sponsored Intercultural Education Satellite Project. This project uses satellite television to introduce young people to over 200 different cultures worldwide. This new initiative is the brainchild of Gerry Royal, Ballyfermot Community Association and is funded through the Dormant Accounts RAPID Additionality Fund.

Marian McHugh's innovative style of leadership ensured that St Raphael's also received their Green Schools Flag and Digital Inclusion Flag this year. Well done St Raphael's.

New Extension for St. Matthews

St Matthews Family Resource Centre on Drumfinn Avenue opened the doors of the newly extended and refurbished centre earlier this year. Costing over €180,000 the centre will now cater for more people with new programmes and activities.

The refurbishment extended the centre at the rear, redesigned and extended the playroom, provided new toilets, rewired where required and provided the fixtures and fitting needed.

Mary Poland Co-Ordinator and Marie Hartigan development worker outside the newly extended and refurbished St Matthews Family Resource Centre

Ballyfermot RAPID assisted in obtaining the required funding and in finding additional resources to make this project happen.

'The Bungalow' goes Healthy

International Women's Day saw the 'Bungalow' in Cherry Orchard providing health therapies to women in the community. Massage, Reiki et al were the order of the day with a friendly cuppa and a chat thrown in for good measure.

Environmental Enhancement

Ballyfermot RAPID Programme is committed to the environmental enhancement of the Ballyfermot Area. Working with Dublin City Council, the Ballyfermot Environment Group and the Ballyfermot Environmental Impact Group, significant progress has been made.

One such project is the upgrading and sustainability of the RAPID sponsored planters on the main road from the 79 to St Matthews Church. RAPID and Dublin City Council provided an additional 14 planters last year and these have been very successful. This brings the total to 19 including the 5 planters sponsored by Thorntons in 2006. Mark and the lads from the Environmental Impact Group do a great job in making sure that these planters are kept in good condition and provide colour along the main street.

Ballyfermot Funding News

The Ballyfermot RAPID Area Programme, since its inception, have provided information and support to local groups in their efforts to access funding and seize funding opportunities. On a regular basis, all job and funding opportunities are emailed to groups and individuals on our database which is updated regularly. We also provide funding courses which assist in understanding funding criteria, do's and don'ts, reasons for failure of applications etc.

As a RAPID Area, all applications receive priority status and most applications require endorsements from the Area Implementation Team. The RAPID Co-Ordinator keeps in regular contact with all Government Departments and funding agencies and acts on behalf of the area to ensure that the area does not miss out on these opportunities and is available to assist any group or individual in their efforts.

Over the past two and a half years, Ballyfermot has secured over €6.7 million in funding for a number of projects, details of which are documented over the next few pages. Projects range from community buses to indoor gardening, pre schools to building extensions, addiction and music programmes to playgrounds and information technology projects.

While the Ballyfermot RAPID Programme cannot take the credit for all of this success, it has made a significant impact in this area. We continue to seek out new opportunities, draw down resources and assist groups to access funding to provide more and better resources in the area.

By providing the following information we show that Ballyfermot has benefited from an increase of funding and we hope that you the reader have in some way benefited from the increased resources now available in Ballyfermot.

Beneficiaries and Funding Secured from July '06 to December '08

Total = €6,771,677.80
