“ This is great for the kids, you do not see much of this type of coaching around, I think it's great for them.

Craig Walsh, Sky One's Footballs Next Star

I still remember how happy he was at his first session, and how he continues to be excited when Saturday comes around. After a few weeks at BSS he became more confident while playing football and he is out every day with his BSS ball practicing what he has learned at the sessions, and trying to figure out something new by himself.

Agnieszka Zurkowski, Mother of Olaf Zurkowski **”**

What is Futebol de Salão?

-  5-a-side version of football of South American origin that is played with a smaller, heavier ball that has virtually no bounce which encourages players to develop and use their technical skills with special emphasis on flair, creativity and dribbling.
-  Very popular in Brazil with players such as Pele, Rivelino and Jairzinho right through to Juninho, Ronaldo and Ronaldinho who were brought up first playing Futebol de Salão before moving on to conventional football.
-  Following FIFA's decision to promote the game of Futsal (5-a-side with a size 4 ball) Futebol de Salão has virtually died out in South America but is now developed globally through the International Confederation of Futebol de Salão (Brazilian Soccer Schools) who see the game as being the best start for children in football.

Benefits of Brazilian Soccer Schools for the Child

-  Emphasis on individual development.
-  Focus on learning as players work individually or in pairs.
-  The programme works for children of all abilities, as all children are able to work at their own level and speed due to working individually or in pairs.
-  Our programme, as well as being fun, exciting and progressive promotes the development of balance, co-ordination and strong movement patterns which are fundamental to all movements and transfer easily to other sports and activities.
-  The sessions can be tailored for all ages and the use of music ensures a positive atmosphere that is enjoyed by both boys and girls.
-  Access to the ICFDS Skills Badge Scheme – a multi level award scheme.

Michael Owen

The FAI hopes that with Simon's help, Ireland can produce a generation of skillful soccer players.

Football Association of Ireland, thanking Simon Clifford for his work in developing their Skills Coaching

It is easy to see why the game works, the Futebol de Salão players have to make quick decisions and either dribble or make a short passing move, it encourages players to do things. In the English game we don't get enough dribbling players taking other players on. This game can help bring that back.
